### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

1. A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949). In the present instance, claim 6, 7-9 recites the broad recitation in claim 6, line 2 the ionomer is claimed as "perfluorinated polymer", and the claim also recites preferably comprising "–SO<sub>3</sub>H, and/or –COOH," which is the narrower statement of the range/limitation.

2. Claims 8, 17, 25-26, 22, 15, 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 8 is incomplete; the term monomeric units in line 2 should read "fluorinated monomeric units. Claims 15-16 are unclear, because it contradicts the limitation

Art Unit: 1723

of claim 1, which is limited to amorphous polymer, while claim 15 is directed to both amorphous and crystalline perfluoropolymers, and claim 16 further exclude the amorphous. Claim 17 is incomplete as to whether a "liquid" separation "is intended, and as to whether the process comprise the step of contacting the liquid with the membrane.

3. Claims 1-5, 10-14, 18-21, and 23-24 are allowed over the prior art of record.

4. Claims 6-9, 15-17, 22, 25-26 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

5. The following is a statement of reasons for the indication of allowable subject matter: The membrane made of the material an/or process as claimed in the present invention and having the water permeability, or uses in reverse osmosis and ultrafiltration or microfiltration operations is not disclosed or suggested in the prior art of record. The combination of limitations of objected claims, once clarified and completed will also be in conditions for allowance. The Examiner proposed and Examiner's amendment to Gautam Prakash, which did not result in an agreement, since more time was necessary to get a response from his client.
